Our Mission

To be the leading provider of effective, high-quality and affordable cooling products for people with multiple sclerosis (MS) throughout the global MS community.

Polar Products Inc.

The leading US manufacturer of MS cooling garments since 1984.
MS Clinic Newsletter Spring & Summer 2013

Cooling Goes Mainstream

Cooling the body can be an effective part of a comprehensive plan to improve quality of life for people with MS heat sensitivity.

"Wellness and complementary and alternative medicine (CAM) approaches that appear to have low risk and potential therapeutic effects, including exercise, yoga, tai chi, hydrotherapy, and cooling, have now become mainstream and are incorporated into the treatment plan of those with MS." - Dr. Allen C. Bowling

Pre-cooling and post-cooling can also help with the negative effects of heat during exercise, which can be an important part of some patients' wellness plans.

PEDIATRIC MS

Heat intolerance is a symptom that children with MS may experience. As someone diagnosed with MS myself as an adult, it saddens me that heat sensitivity can be life altering for an active child. With the right body cooling products, kids with MS don't have to miss out on the fun!

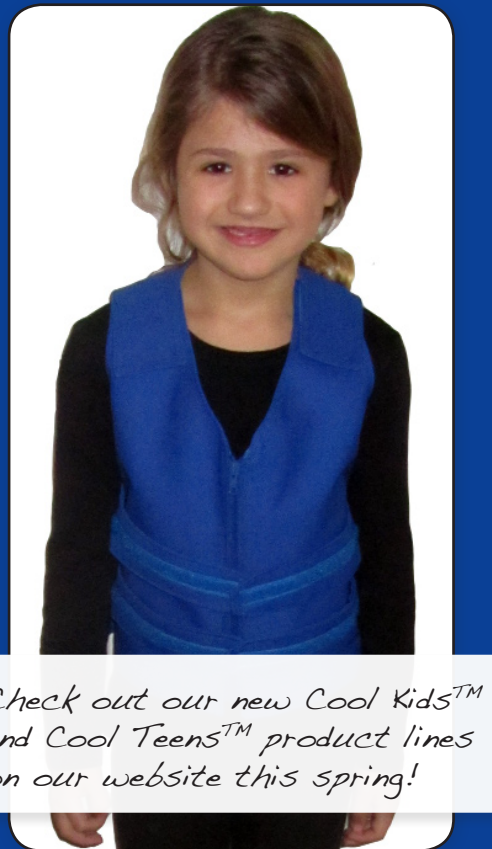

Cool Kids™ Vest with CoolS8™ packs

We are developing a new line of body cooling garments designed just for children and teens, including **lightweight, safe and comfortable vests** and **age-appropriate accessories**.

Do you have suggestions for products that kids will want to wear to "beat the heat"? Please contact me at Jil@polarproducts.com!

Warm regards, *Jil Deabler* • Polar MS Consultant

Patent Pending

Spinal Cooling

Strategic • Targeted • Effective

Strategic cooling placement is an effective way to reduce the overall weight of cooling vests and accessories.

Kool Max® Neck & Upper Spine Wrap

4.5" x 7" Kool Max® pack for the spine

- The interior placement of our Kool Max® Packs along the spine of our vests is patent pending.
- **Kool Max® Neck and Upper Spine Wrap** - one of our best-selling accessories. At only 1.7 lbs., it can be a great alternative to a vest if desired!
- **Kool Max® Zipper Vest** - We have reduced the weight of the size Medium/Large from a maximum weight of 5 lbs. to 4 lbs. by strategically placing the packs along the spine.
- **Cool Comfort® Hidden Vest** features a racerback style with a strip of cooling crystals down the spine.
- **Kool Max® Fashion Vest** - NEW! This lightweight vest includes three cooling packs down the spine (with a total of five packs) for a streamlined appearance.
