

Cooling Relief for Kids with MS!

Did you know that up to 10,000 kids under the age of 18 are believed to have MS?¹ Summer is right around the corner, and heat sensitivity can be a common and difficult symptom for a child or teen with MS.

Kids and teens with MS can “beat the heat” this summer with Polar’s CoolKids™ and CoolTeens™ cooling garments!

Polar Products, the leading worldwide manufacturer of cooling garments for people with MS, has launched a new line of cooling vests and accessories designed specifically for children, pre-teens, and teenagers with MS.

These garments use Cool58™ cooling packs which cool at a consistent, safe and comfortable temperature of 58 degrees Fahrenheit for up to 3 hours.

CoolKids™

The new **CoolKids™ Vest** adjusts for a comfortable fit. Available in kid-friendly Arctic Pink, Polar Blue or Frosty Khaki!

CoolTeens™

The pressure of being a teen can be tough, and teens with MS want to fit in too. The discreet and lightweight **CoolTeens™ Secrets Vest** provides effective and comfortable cooling beneath clothing. The **CoolTeens™ Fashion Vest** is a stylish option for staying cool.
