Safe and Effective Cooling Vests for Kids!

Heat-sensitivity can be a difficult symptom for an active child.

Last summer we introduced our new Cool Kids™ line of cooling vests and accessories designed for toddlers, children and teens. The response from parents has been overwhelming. There is clearly a great need for pediatric body cooling!

These garments use lightweight, non-toxic cooling packs that cool at a safe and comfortable temperature of 58 degrees F.

Visit www.polarproducts.com or see the enclosed brochure for more information.

"Kindergarten success! Thanks to the cooling vest, my daughter has been able to actively participate in physical education and recess without risk of overheating. It is easy for her to use by herself. She keeps it in a mini-fridge in her classroom and uses it as needed. Thank you so much for your product!"

— Jen in WV

Fax or e-mail us the form on the back to request FREE educational literature and sample products!
