SUMMERTIME IS COMING

Summer is an exciting time of year, especially for children and teenagers! But for those who suffer from heat intolerance, the hot season can mean a lot of time spent indoors away from the fun. Many medical conditions, such as multiple sclerosis and ichthyosis, have heat intolerance as a symptom, and it may also be a side effect of medications for conditions such as epilepsy.

Cooling garments can help kids and teens get outside and join their peers! Polar Products has developed comfortable and effective cooling vests, neck wraps, and accessories for toddlers, children, and teens. Our pediatric cooling products are reusable, lightweight, and non-toxic.

"I purchased your [Active Ice 2.0® Therapy System] for post-surgical and PT relief following a rotator cuff repair on my right shoulder. IT IS MY BEST FRIEND! I could not have been as comfortable without it, especially the first four days. A friend told us about how much they love it and sure enough, we became a fan as well. I think we'll need two soon as I need it for my shoulder and my husband needs it for his knees! It is a wonderful product and we are so pleased." – Pat in Pennsylvania

"The [Polar CoolKids™] cooling vest is amazing! Our son has [HED - Hypohidrotic ectodermal dysplasia]. He is 4 years old and he doesn't sweat and doesn't like summer because of heat. This inability to sweat leads to a dangerously high body temperature. It makes our lives difficult. But thanks to your perfect cooling vest we can go to the outside and even play and run. It really helps him and keeps the comfortable temperature about 2 hours. We cannot buy in Ukraine something like this. Thank you so much!" – Svetlana in Ukraine

Polar's CoolKids™ cooling vests have interior pockets for Cool58® Cooling Packs that cool at a comfortable temperature of 58° Fahrenheit. Adjustable sizes available for Toddlers and Children.

CoolKids™ Stroller Seat

“The cool seat cushion is great! I am in my wheelchair full time and it gets very warm. The cooling cushion keeps me cool for about 3 hours. I keep the back-up packs in the freezer and I just switch them out. I am active in my chair, so this has been beneficial this summer.”

– Katherine in Michigan

Secrets Torso Wrap

“This torso wrap was a real blessing this summer and I am SO THANKFUL I bought it. We did the farmers market all during the hot days of summer in the south. I wore this and brought the refills along in a cooler. The two sets of ice packs lasted about 4 hours total on the hottest days. There's no way I would have made it through without it.” – Jessica in Missouri
