

Testimonials

what people with MS are saying

"I have MS and when I get overheated, I can't see. This Kool Max® Zipper Vest really helps! I wear it everywhere."

Carol in California

"I tried out my cooling vest at roller derby practice today. It worked fabulously! Multiple sclerosis tried to get me off my skates, but Polar Products got me back on the track. Thank You!"

Crystal in Canada

"I have MS and was attending my son's appearance in a musical. The venue had no AC and the temperature was 97. In Chicago with humidity, that feels like 105. I was able to sit through the 2 hour production with the help of the Kool Max® Neck and Upper Spine Wrap."

Jane in Illinois

"I've got MS and used to be confined to the indoors during most of June - Oct. For two years now, this Kool Max® Poncho Vest has allowed me to help coach my son's youth football team in Texas - starting in Aug., when the temps are consistently over 100 degrees! I just wear a hat and put the vest on under a golf shirt and nobody can even tell I've got in on. EXCELLENT product and highly recommend it for anyone with heat sensitivity issues who want to get their life back!"

Tom in Texas

"I have the Kool Max® Cooling Seat Cushion and use it on my scooter. This cooling seat has truly improved my quality of life! I now can do things with the kids I could not before. Recently we visited the zoo and spent several hours there. By lunch, everyone else was wilting from the heat but my cooling seat kept me cool and feeling good. Great product!"

Cheryl in Pennsylvania

POLAR PRODUCTS Body Cooling Systems and Multiple Sclerosis

You are unique.

Which type of body cooling is best for you?

Each person's MS is different and there is no "one size fits all" choice for body cooling. Polar Products specializes in every type of cooling!

Kool Max®

- Frozen water-based cooling packs fit into pockets in vests and accessories.
- Highest level of cooling for up to 3-4 hours in any climate.
- Reusable packs require access to a freezer and time to freeze.

Kool Max® is the #1 choice for people with MS!

Cool58®

- Reusable phase change cooling packs freeze at 58 degrees Fahrenheit and provide comfortable cooling at a constant 58 degrees Fahrenheit for up to 1.5-3 hours.
- Can be charged in a bucket of ice water.

Ideal choice when freezers are not available.

Cool Comfort®

- Submerge in water to activate cooling.
- Natural evaporative cooling in low humidity.
- Gain additional hybrid cooling by chilling or freezing the activated garment.

Give us a call at 1.800.763.8423 and we will be happy to help you decide which type of cooling is best for your individual needs.

Visit polarproducts.com to see our full line of body cooling vests, wraps and accessories.
