

Testimonials

what parents are saying about Polar's Cool Kids™

"My daughter is unable to sweat and self-cool. Thanks to the Cool Kids™ vest, my daughter has been able to actively participate in PE and recess without risk of overheating. It is easy for her to use by herself. She keeps it in a mini-fridge in her classroom and uses it as needed. Thank you so much for your product." *Jen in WV*

"This toddler cooling vest is a true lifesaver for my daughter. She has a skin condition called Ichthyosis that prevents her from sweating and regulating her body temperature. Now she is able to attend recess and PE with her friends at school and participate in other outdoor activities." *Cynthia in TX*

"This Cool Kids™ Toddler Cooling Vest works wonders for my son! He was born with Down Syndrome and has a hard time regulating his own body temperature. With this vest we have been able to play outside without the constant worry of him overheating. His safety means everything to us and this vest certainly helps my husband and I worry a little less. The vest is easy to use, easy to clean, and it really does only take 20 minutes in ice water to recharge. I could not be happier with this product!" *Courtney in VA*

POLAR Products Pediatric Cooling A Product Guide

Kids with certain medical conditions may experience heat sensitivity. Cooling garments can help kids and young adults beat the heat!

Heat-sensitivity can be a difficult symptom for an active child.

Kids and teens with medical conditions that cause heat intolerance don't have to miss out on the fun!

Polar Products recommends the following **safe, effective** and **affordable** cooling technologies for kids and young adults:

Cool58® Phase Change Cooling

Cool58® garments use non-toxic and reusable cooling packs that cool at a consistent, moderate temperature of about 58° Fahrenheit. Packs can be activated in a refrigerator or a cooler of ice water. This is an excellent and safe choice for pediatric cooling.

Cool Comfort® Water-Activated Hybrid

Cool Comfort® garments contain special water-absorbing crystals. They will hold the temperature of the water they are soaked in and then cool through evaporation. Chill in the refrigerator for additional cooling. Sizes best for teens and young adults.

"[Cooling products] allow you to participate in outdoor activities while preventing an increase in your body temperature."

TODDLERS

TODDLER VEST
#PCVZT \$129.00

Two 3" x 6" packs
One 3" x 12" pack

Weights just 1.25 lbs.!

"Much less expensive than the vest we had purchased from another company. We might get a lot more wear out of it as the straps for adjusting it around and on the shoulders are much longer. Excellent vest and excellent quality. *Janice in GA*

STROLLER COOLING SEAT CUSHION
#PCSS \$90.00

Adjustable straps secure the seat to any stroller.

One 5.5" x 12" pack

COOL KIDS™

COOL KIDS™ VEST
#PCVZC \$134.00

Four 6" x 6" packs
Front Interior with Packs

Back Interior with Packs

One 2" x 13" pack

NECK WRAP
#PCNBC \$19.95

COOL KIDS™ KIT
#CKK \$197.50

"My son loves Star Wars, so I put a few iron-on patches on his new Polar Products cooling vest." *Kapka in CA*

COOL TEENS™ ZIPPER VEST
#KMVZ-PC \$180.00

5" x 6" packs
(Number varies)

Vest sizes available from Small to 4XL!

See size charts and our full line of cooling garments on our website.

"My 12-year-old son loves his vest. He likes it especially because it is easy for him to use. I can tell that it helped him not be fatigued as much and he didn't sweat like he normally would. That was a huge help in keeping him hydrated. Thank you so much. You have no idea how much this will improve his quality of life." *Amy in OH*

"The Zipper Vest is a wonderful, versatile vest. In the cooler northern climates it will last about 3 hours. Have extra packs if you live in warmer southern climates. *Tracy in PA*

- Cooling packs fit into strategically placed pockets in the front and back of the vests for maximum effectiveness.
- Pack pockets have a comfortable fabric to protect the skin and an insulated outer fabric to direct the cooling energy toward the body.
- Vests can be worn over or under clothing.
