

THE WORK ITSELF IS HARD ENOUGH.

In high-temperature working environments, reducing the risk of heat stress can result in fewer injuries and improved productivity. Polar's easy-to-use cooling systems improve efficiency and increase worker safety and comfort.

IF ALL YOU HAVE IS A HAMMER, THE WHOLE WORLD LOOKS LIKE A NAIL.

Other manufacturers may claim that their single, unpatented cooling technology is the best for all working environments, but **Polar Products is the only manufacturer worldwide offering every major type of personal cooling technology!**

Each technology has advantages, limitations and cost considerations. We have over 30 years of experience and are therefore uniquely qualified to provide the best, cost-effective solutions for diverse requirements and environments.

TESTIMONIALS

WHAT WORKERS ARE SAYING...

"The production floor hits temperatures up to 100+ degrees on certain days. The employees love the Kool Max® Industrial Vests. They keep them cool."

– Tony in Iowa

"Heat in the oil fields is brutal so the Fire Resistant vest is a PERFECT solution."

– Edward in Oklahoma

"Great vest, really helps to keep the workers cool!"

– Bekki, Health, Safety & Environment Coordinator in Missouri

Industrial Cooling Vest

Our best-selling cooling vest! The zipper front vest efficiently and effectively cools the body in any environment, under or over clothes.

Adjustment straps at the chest, waist and shoulders allow for a comfortable, snug fit for optimal cooling.

Constructed of a durable, machine-washable 100% cotton twill.

Also available in Nomex™ and Banox™ fire-resistant fabric.

Discreet pockets sewn inside the vest are compatible with both Kool Max® and Cool58® cooling packs, so you can choose the best technology for your individual working environment.

Kool Max®

WATER-BASED COOLING PACKS

Provide the highest level of cooling in any environment for up to 3-4 hours. Cost-effective reusable packs require access to a freezer.

Cool58®

PHASE CHANGE COOLING PACKS

Reusable packs freeze at 58 degrees Fahrenheit (14.4° Celsius) and provide effective cooling at a comfortable 58°F for up to 1.5-3 hours. Can be charged in a cooler of ice water. *Ideal choice when freezers are not available!*

ADDITIONAL COOLING PACK ACCESSORIES:

NECK BAND

CROWN COOLER

SEAT CUSHION

Cool Flow®

CIRCULATING COLD WATER SYSTEM

Continuously circulates cold water from cooling reservoir to tubing sewn within the vest or seat. Available with Lithium-Ion battery pack.

COOL FLOW® VESTS

COOL FLOW® SEATS

Cool Comfort®

WATER-ACTIVATED EVAPORATIVE HYBRID

Submerge in water to activate cooling. Offers evaporative cooling in low humidity. Gain additional cooling by chilling or freezing the garment.

COOL COMFORT® KIT

SAFETY COOLING VEST

- ADJUSTABLE SIZES SMALL THROUGH 3XL
- "ONE SIZE FITS MOST" PONCHO ALSO AVAILABLE
- SAVE MONEY WITH AN INDUSTRIAL COOLING KIT!
