

Testimonials

what people with MS are saying

"I've got MS and used to be confined indoors during the summer. For two years now, this Kool Max Poncho Vest has allowed me to coach my son's youth football team in Texas, when the temperature is consistently over 100 degrees! Excellent product and I highly recommend it for anyone with heat-sensitivity who wants to get their life back!"
Tom in Austin, TX

"I have MS and when I get overheated, I can't see. This Kool Max Zipper Vest really helps! I wear it everywhere."
Carol in Burbank, CA

"My Kool Max Cooling Vest has changed my life. I was unaware of what a half point increase in body temperature did to bring on my MS symptoms (fatigue and cognition). Simple things like blow drying my hair, washing a few dishes, or ironing clothes would make me miserable and almost daily ruin my plans. I decided to invest in a Kool Max Vest and my life is forever changed!"
P.Y. in Houston, TX

"The water-activated cooling hat and neck wrap are fantastic! I went kayaking recently... despite my MS, I was comfortable & able to paddle for 2 hours. These wraps enable me to do the things I love without the incapacitating heat sensitivity."
Patricia, RN, BSN, MSCN in Akron, OH

"Since getting my Kool Max Fashion Vest I have been able to get out and walk and ride the exercise bike without the usual backlash of flaring symptoms due to MS."
Lynda in Charlotte, NC

Also available from POLAR Products: Hot & Cold Therapy for Pain Management

Active Ice®

Circulating Cold Water Therapy System

Easy-to use for post-surgery recovery for hips, knees, shoulder, back and more.

Soft Ice®

Cold/Hot Packs and Compression Wraps

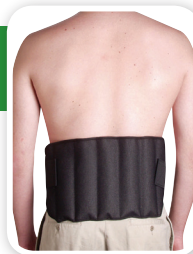

Packs are soft and flexible when frozen and fit in pockets inside the compression wraps.

Thera-Temp®

Microwaveable Moist Heat Therapy Wraps

Deep-penetrating moist heat provides comfort for chronic and musculoskeletal pain.

MS Cold-Sensitivity

According to a recent article in Momentum magazine, "heat intolerance is a well-known and well-understood symptom of MS while cold intolerance is much less acknowledged." Polar's vests can be used as heating vests too! Air-activated heat packs fit in the same pockets as the cooling packs. Contact us for more information about how our vests can be used as heating vests.

POLAR Products Body Cooling Systems & Multiple Sclerosis

You are unique

"Which type of cooling is best for me?"

Each person's MS is different and there is no "one size fits all" choice for body cooling. Polar Products specializes in offering every type of personal cooling technology.

Kool Max®

- Frozen water-based cooling packs fit into pockets in vests and accessories.
- Highest level of cooling for up to 3-4 hours in any climate.
- Reusable packs require access to a freezer and time to freeze.
- **#1 choice for people with MS!**

Cool58®

- Reusable phase change cooling packs freeze at 58 degrees Fahrenheit and provide comfortable cooling at a constant 58 degrees Fahrenheit for up to 1.5-3 hours.
- Can be charged in a bucket of ice water. Ideal choice when freezers are not available.

Cool Comfort®

- Submerge in water to activate cooling.
- Natural evaporative cooling in low humidity.
- Gain additional hybrid cooling by chilling or freezing the activated garment.

A Product Guide for MS Body Cooling

Give us a call at 1.800.763.8423 and we will be happy to help you decide which type of cooling is best for your individual needs.
