

Safe • Effective • Drug-Free

Polar Products recommends the following cooling technologies for young kids and teens:

Cool58® Phase Change Cooling

Cool58® garments use reusable and non-toxic cooling packs that cool at a consistent, moderate temperature of about 58° Fahrenheit. Packs can be activated in a refrigerator or a cooler of ice water. This is an excellent and safe choice for young kids and teens.

Cool Comfort® Hybrid Technology

Cool Comfort® is an innovative hybrid technology that uses special water absorbing crystals. They will hold the temperature of the water they are soaked in and then cool through evaporation. Chill in the refrigerator for additional cooling. Ideal for sports!

"The Cool Kids™ cooling vest is a true lifesaver for my daughter! She has a condition that prevents her from regulating her body temperature. With this vest she is able to attend recess and participate in outdoor activities with her friends."

- C.P. in Texas

Cool Comfort® Hybrid

Especially ideal for sports or activity!

A Guide to Cooling Garments for Kids & Teens

Polar Products Inc. is a family-owned company with 30 years of experience as a world leader in manufacturing high-quality, effective and affordable body cooling garments.

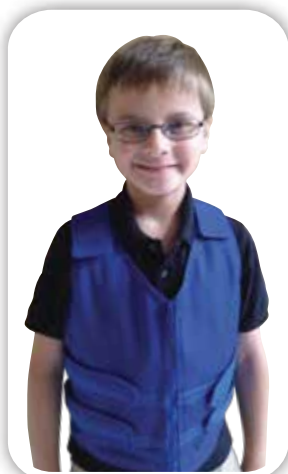

See the complete product line at www.polarproducts.com or call 1.800.763.8423 to request a catalog.

Kids with certain medical conditions may experience heat sensitivity. This guide will help you choose the right type of body cooling garment.

Cool Kids™

Cool Kids™ Vest

- Includes four 6" x 6" Cool58® packs
- Lightweight - weighs as little as 2 lbs.
- Comfortable unisex vest is adjustable at the shoulders, chest and waist for a snug fit
- Two sizes to fit children up to 100 lbs.
- Colors: Arctic Blue, Kodiak Khaki, Polar Pink

Cool Kids™ Neck Wrap

- Uses one 2" x 13" segmented Cool58® cooling pack.
- Colors: Arctic Blue, Kodiak Khaki, Polar Pink

Note: The neck wrap also makes an excellent cooling torso wrap for smaller children.

Kids and teens with medical conditions that cause heat intolerance do not have to miss out on the fun!

The National Pediatric MS Center at Stony Brook Medical Center suggests using cooling products to beat the heat:

"These items allow you to participate in outdoor activities while preventing an increase in your body temperature."

Our Cool58® technology cools at a comfortable and safe temperature of 58 degrees F and is effective in any climate.

National Pediatric MS Center at Stony Brook University Medical Center. "Keeping Your Cool This Summer." Pediatric MS Newsletter (Summer 2011): 2. Print.
