WHAT PARENTS ARE SAYING ABOUT POLAR'S COOL KIDS™

"My daughter is unable to sweat and self-cool. Thanks to the Cool Kids™ vest, my daughter as been able to actively participate in PE. It is easy for her to use by herself. She keeps it in a mini-fridge in her classroom and uses it as needed. Thank you so much for your product."

- Jen in WV

"This toddler cooling vest is a true lifesaver for my daughter. She has a skin condition called Ichthyosis that prevents her from sweating and regulating her body temperature. Now she is able to attend recess and PE with her friends at school and participate in other outdoor activities." - Cynthia in TX

"This Cool Kids™ Toddler Cooling Vest works wonders for my son! He was born with Down Syndrome and has a hard time regulating his own body temperature. With this vest we have been able to play outside. The vest is easy to use, easy to clean, and it really does only take 20 minutes in ice water to recharge. I could not be happier with this product!" - Courtney in VA

PEDIATRIC COOLING

A PRODUCT GUIDE

HEAT-SENSITIVITY CAN BE A DIFFICULT SYMPTOM FOR AN ACTIVE CHILD.

KIDS AND TEENS WITH HEAT INTOLERANCE DON'T HAVE TO MISS OUT ON THE FUN!

Polar Products recommends the following **safe**, **effective** and **affordable** cooling technologies for kids and young adults:

COOL58® PHASE CHANGE COOLING

Cool58® garments use non-toxic and reusable cooling packs that cool at a consistent, moderate temperature of about 58°F. Packs can be activated in a refrigerator or a cooler of ice water. This is an excellent and safe choice for pediatric cooling.

COOL COMFORT® WATER-ACTIVATED HYBRID

Cool Comfort® garments contain special water-absorbing crystals. They will hold the temperature of the water they are soaked in and then cool through evaporation. Chill in the refrigerator for additional cooling. Sizes available for teens and young adults.
