

SAFE AND EFFECTIVE COOLING VESTS FOR KIDS!

"My 4-year-old takes medication for epilepsy that causes her to not sweat. I so desperately want her to have the same experiences as other children. Helping her stay outside for activities is so important." - Geri in KY

Heat-sensitivity can be a difficult symptom for an active child or teen.

We've helped kids with seizure disorders, Ichthyosis, Dravet Syndrome, Down Syndrome, multiple sclerosis and other chronic medical conditions beat the heat!

Our cooling vests for toddlers, kids and teens use reusable, lightweight and non-toxic cooling packs that cool at a safe and comfortable temperature of 58° Fahrenheit.

Visit www.polarproducts.com and see the enclosed brochure for more information about body cooling garments for kids and teens!

TODDLER COOLING VEST
Front Interior (left) and Back Interior (right)

Cool58®

COMFORTABLE AND SAFE
Phase Change Cooling Pack
Garments for Kids!

Reusable cooling packs freeze at 58°F and release cooling energy at a comfortable and safe temperature of 58°F! The packs can be charged in a refrigerator or on-the-go in a cooler of ice water.
