

PEDIATRIC BODY COOLING

CHILDREN NEED TO PLAY, SO LET'S MAKE SURE THEY CAN

School is out for summer, and it's time to soak up the sun and play with friends - except for those who suffer from heat intolerance. Children who suffer from medical conditions have enough obstacles, and having heat intolerance as a side effect of those conditions means they miss out on a lot that summer has to offer. They miss out on what most kids would say is the best time of the year.

Polar Products has developed comfortable and effective cooling vests, neck wraps and accessories for toddlers, children and teens. Let us help you help your patients and improve their quality of life.

THESE COOLING GARMENTS CAN HELP KIDS AND TEENS GET OUTSIDE AND JOIN IN ON THE FUN!

Inform your clients about cooling products - a natural, drug-free way to improve their quality of life.

Polar Products is a leading worldwide manufacturer of high-quality, effective and affordable body cooling products for people of all ages with heat-sensitivity.

"As if having epilepsy and an extremely rare brain disorder were not enough to overcome in life, Kaylee doesn't sweat due to a combination of her epilepsy medications and brain disorder. This makes even being in a hot room too much for her, placing her at risk of overheating and reducing her seizure threshold. Imagine Disney in June!

Well, thanks to the Cool Kids™ Toddler Cooling Vest from Polar Products we not only imagined, we conquered. Whether it was meeting some of her favorite princesses, hanging out with her family, or even riding roller coasters, her cooling vest was there! Easy refreezing with only ice and water made keeping her cool a piece of cake!

Armed with an extra set of cool packs and the amazing flexibility to provide free ice water at Disney, we came, we saw, and we did everything that other peers her age can do! Thanks so much for such an awesome product!!"

– Geri

COMFORTABLE COOLING FOR:

TODDLERS

OUR COOL KIDST[™] TODDLER LINE IS DESIGNED SPECIFICALLY FOR TODDLERS AGES 4 AND UNDER.

The toddler products all use Cool58[®] cooling pack technology, which cools at a cool and comfortable 58°F.

COOL KIDS[™]

OUR COOL KIDST[™] LINE IS DESIGNED SPECIFICALLY FOR CHILDREN AND PRE-TEENS AGES 5-12.

We offer products with two different types of technologies: cooling at a cool and comfortable temperature of 58°F with Cool58[®] cooling packs, or cooling through an evaporative-hybrid method with Cool Comfort[®].

COOL TEENS[™]

OUR COOL TEENS[™] LINE IS DESIGNED SPECIFICALLY FOR PRE-TEENS AND TEENS AGES 11-17.

These products offer cooling through Kool Max[®] packs (frozen, water-based packs) or Cool58[®] packs (phase change cooling packs).

COMFORTABLE • EFFECTIVE • REUSABLE

COOL58[®] PHASE CHANGE COOLING

Cool58[®] garments use non-toxic and reusable cooling packs that cool at a consistent, moderate and safe temperature of about 58°F. Packs can be activated in a refrigerator or a cooler of ice water. This is a safe choice for pediatric cooling.

Cooling packs fit into strategically placed pockets in the front and back of the vests for maximum effectiveness. Pack pockets have a comfortable fabric to protect the skin and an insulated outer fabric to direct the cooling energy toward the body. Vests can be worn over or under clothing.

PARENTS LOVE OUR PRODUCTS! CHECK OUT SOME TESTIMONIALS BELOW

"I am very happy with the stroller seat pad. It is totally what I have been searching for. He was very comfortable in his stroller with the cooling pad in. He wasn't sweaty when we picked him up out of the stroller like he normally would have been."

– Amy

"We're all excited about Norah's latest accessory, her new cooling vest. She doesn't sweat and can't regulate her body temperature, so this vest, with its pockets for special ice packs, will give her extra time outside before she overheats. Watch for it to show up in many, many pics this summer. Would adding sequins be too much?? #ichthyosis"

– Tara

"I wanted to share this picture with you all and thank you for the Cool Kids Vest. My son has a chromosomal abnormality that makes it difficult for him to regulate his body temperature. With your product, he is able to do so much more without becoming fatigued or over heated! Thank You!"

- Jennifer G

"This torso wrap was a real blessing this summer and I am SO THANKFUL I bought it. We did the farmers market all during the hot days of summer in the south. I wore this and brought the refills along in a cooler. The two sets of ice packs lasted about 4 hours total on the hottest days. There's no way I would have made it through without it."

- Jessica

THERAPY FOR THE WHOLE FAMILY

DON'T LET ACUTE OR CHRONIC PAIN PUT A DAMPER ON SUMMER FUN!

ACTIVE ICE® SYSTEM

This circulating cold water therapy system is ideal for post-surgery recovery.

SOFT ICE®

Reusable cold/hot packs and compression wraps reduce inflammation.

THERA-TEMP®

Microwavable moist heat wraps offer relief of chronic pain.

"If you are planning to have any type of surgery, especially knee, shoulder or hip, the Active Ice 3.0 Knee & Joint Pad is worth every penny. It has a timer which can be set for 20 minute intervals (20 iced/20 off) turns on and off without having to take off the knee sleeve. Believe me this will be money well spent!"

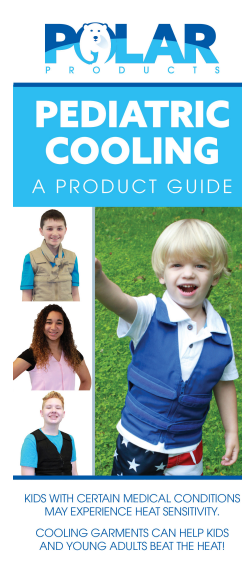

— J.R.

FREE EDUCATIONAL LITERATURE

Everyone is unique. It is important for your clients to choose the right type of cooling garments to meet their unique needs. Our informational materials can help your clients make informed choices about body cooling.

FREE PRODUCT SAMPLES FOR DEMONSTRATION & RESEARCH STUDIES

There is no "one size fits all" choice for body cooling. We are happy to send a sample vest and/or an accessory to your clinic or organization for your clients to see first-hand. Qualifying clinics and organizations: fax or e-mail the order form inside to request educational literature for your clients and a FREE cooling vest for demonstration!

Polar Products is a family-owned company with over 35 years of experience manufacturing effective, high-quality and affordable body cooling and therapy garments.
