

# Keeping cool at the HAPPIEST PLACE ON EARTH

Heat sensitivity can affect people of all ages! Cooling vests allow people with MS to travel and make memories in spite of the heat. Our pediatric **Cool Kids™ Cooling Vests** use reusable cooling packs that cool at a safe and comfortable temperature of 58° F (and can be recharged on-the-go in ice water). Polar's **Cool Flow® Cooling Vests and Seats** are a great option for wheelchair users.

*"Imagine Disney in JUNE! Thanks to the Cool Kids™ Toddler Cooling Vest from Polar Products, we not only imagined... we did everything that other kids her age can do!" – Geri in KY*

Come visit us at Booth #606 as we attend our 16th consecutive year of the CMSC Annual Meeting at Marriott World in Orlando, FL, May 27<sup>th</sup>-30<sup>th</sup>!

## CIRCULATING WATER COOLING VESTS & ACCESSORIES

"We bought the **Cool Flow® Fitted Vest System** with a lithium battery pack. We took a vacation down to Orlando, Florida and went to Walt Disney World, Universal Studios and SeaWorld for a week. It was 90+ temperatures, but with heat index, it was over 100 degrees. The vest kept my wife cool for at least 4 hours. This was a lifesaver at these temperatures. We would recommend this cooling system to anyone, especially those with MS and living in hot climates. We had it hooked to the back of her electric wheelchair. My wife loves it. We charged the battery every night. It kept the charge the entire time using the vest." – Michael in MO

"I use the **Cool Flow® Cooling Blanket System** for my primary progressive multiple sclerosis. I have a rapid and severe heat intolerance and we are a family that enjoys our lake home. The humidity in Minnesota is unbearable for most of July and August. This is a fabulous product and has allowed me to stay on the boat and in the yard with my family instead of going inside by myself. Thank you for developing this type of technology for people like me!" – Melissa in MN

"The **Cool Flow® Fitted Vest System** keeps me very cool! I have MS and would not have been able to handle the heat. Thank you!" – Kathleen in Orlando, FL

MS Newsletter, Spring & Summer 2020

## COLD THERAPY FOR MIGRAINE RELIEF

Are migraines related to multiple sclerosis? A recent study showed that for some people, headaches (especially migraines) can be an early symptom of MS.

*"Headaches were prevalent in 78% of patients in our population with newly diagnosed CIS and MS."*<sup>1</sup>

Cold and hot therapy can safely and effectively complement the pain relief methods prescribed by healthcare professionals. Our therapy products can provide effective drug-free pain relief for migraines and headaches (and other discomforts!) that people with MS often experience.

Polar's **Cool Flow® Cooling Head Cap System** provides effective cold therapy to the head by continuously circulating cool water throughout a soft, lightweight cap. Circulating water systems offer the highest level of personal cooling. Learn more about our **Cool Flow® vests and accessories on page 4!**

*"Headaches and heat impact me and disrupt sleep and activities on a daily basis. Many products, treatments and drugs have been offered to try to alleviate these conditions; however, none of them have helped me as much as the Cool Flow® Cooling Head Cap System. This has been the only product that I have found that gives me any relief!" – Tara in CA*

## FREE Educational Literature and Product Samples

### EACH PERSON'S MS IS DIFFERENT

It is important for your clients to choose the right type of cooling garments to meet their unique needs. Our informational materials can help your clients make informed choices about body cooling.

La literatura educativa gratuita de Polar ya está disponible en español. ¡Consiga la suya hoy junto con una muestra gratis!

### THERE IS NO "ONE SIZE FITS ALL" CHOICE FOR COOLING
