

Testimonials

what our clients are saying.

"We currently carry Polar Products for many of our costume and mascot customers; and our customers are very pleased with the cooling they receive from these products. It keeps them cool for hours."

Gregg Kerns, Owner-Costume Holiday House Fremont, OH

"The Kool Max cooling vest is very useful in my job. As Mascot for the Akron Aeros it is very difficult, on those hot summer days, to remain cool. With the vest I can reduce the heat by 15 degrees inside my costume; and as little a difference you may think this is, it actually feels like a major one to me."

Megan, Akron Aeros in OH

"I'm almost halfway through my season at Wellington Green Mall in Wellington, FL. This is my 11th year doing Santa and by far the "Kooolest". The Kool Max Zipper Vest has made a major difference for me and I just wanted to let you know how much I appreciate it."

Pete (a.k.a. Santa) in Wellington, FL

"The Kool Max vest is fantastic at keeping me cool underneath the clown outfits I wear here in Florida. The vest really helps!"

Ann in New Port Richey, FL

Why cooling for costumes and mascots?

At Polar, we understand it gets hot under there!

Polar Products is a family-owned company that has been providing quality products and service to our customers for over 25 years. We manufacture a great line of high-quality cooling options for Mascots and Costumes. We offer lightweight and efficient cooling vests at prices our competition can't beat!

KMVZ

Kool Max Cooling Pack Systems deliver up to 4 hours of cooling in any environment. These systems are high-quality and lightweight with a simple, comfortable and unisex design.

KMVZ Vest (Weighs 5.25 lbs.)

Vest includes 11 reusable cooling packs. (Size Small has 8 packs and weighs 3.7 lbs.) Vest is adjustable with hook and loop tab straps on the shoulders and sides with an easy to use zipper-pull front.

KMV

KMVT

KMV Vest (Weighs just 4.5 lbs)

Vest is fully adjustable with hook and loop straps. One size will fit most. Vest includes ten 4.5" x 6" reusable, non toxic Kool Max Cooling Packs that are placed in insulated pockets on the front and back of the vest.

KMVT Torso Vest

Vest is fully adjustable with elastic and hook and loop straps on each side. Includes detachable suspenders. One size will fit most. Vest includes six 4.5" x 12" reusable, non toxic Kool Max Cooling Packs that are placed in insulated pockets on the front and back of the vest.

Also available: KMVT-Slim, an extremely low-profile vest that allows maximum freedom of movement. Include six 4.5" x 6" Kool Max Cooling Packs.

SAVE MONEY when you buy a Mascot & Costume Cooling Kit!

Our Kit includes the KMNC with any of our Kool Max vests! Use products separately as needed or together for maximum effectiveness.

COOLING NECK WRAPS

Cooling neck wraps offer lightweight, cost-effective, and efficient body cooling. We offer three types of cooling:

- **Evaporative Cooling:** works best in low-humidity environments
- **Kool Max Cooling:** a great, cost effective choice when freezers are available for the packs.
- **Phase Change 58° Cooling:** Cools at a constant 58 degrees Fahrenheit and can be charged in a refrigerator or a bucket of ice water.

PCVZ

Phase Change Cooling Vest Systems

Phase Change Cooling Apparel is specifically designed to provide comfort and heat stress protection. Our phase change vests and wraps deliver a constant temperature of 58 degrees Fahrenheit for up to 3 hours. Packs are non-toxic and

non-flammable. The cooling performance is not impacted by humidity or outside temperature. The phase change packs may be reused over and over again by simply submersing the pack in ice water or placing in a refrigerator or freezer. Available as a poncho or a zipper-front style vest.
